August 27, 2024

Type Package

Title Xsimd C++ Header-Only Library Files

Version 7.1.6

Date 2021-01-05

Description This header-only library provides modern, portable C++ wrappers for SIMD intrinsics and parallelized, optimized math implementations (SSE, AVX, NEON, AVX512). By placing this library in this package, we offer an efficient distribution system for Xsimd <<https://github.com/xtensor-stack/xsimd>> for R packages using CRAN.
